PROGRAM	DESCRIPTION	SPONSOR LEVELS
Innovative Teaching & Counseling Awards Awarded in March	Grants awarded annually to promote innovative teaching methods. Over \$1 million has been awarded to more than 700 teachers and benefitted over 100,000 students since the inception of this program.	\$5,000+
Afterschool Classroom Enrichment (ACE) Year-round Program	Innovative enrichment classes taught by experienced instructors in areas such as science, art and music on IUSD campuses after school. Nearly 6,000 students enroll in ACE classes each year, with scholarships offered to low income families.	\$5,000+
IPSF Summer Enrichment Academy (SEA) Summer Break	Summer classes for K-12 allow students to explore interests and enhance academic skills. Over 5,000 students benefit from SEA each year with scholarships offered to low income families. Classes are open to students throughout Orange County.	\$5,000+
Tournament of Champions Year-round	IPSF organizes a series of city-wide sports tournaments to promote school spirit and unite the Irvine community. These tournaments provide fun opportunities for physical sports education and character development for thousands of students, their families and community members.	\$5,000+
Irvine CubeSat STEM Program Year-round	Provides STEM educational resources to students with the intention of inspiring the next generation of innovative thinkers. Teams of students at five high schools are joining forces with industry partners and experts to assemble, test and launch a CubeSat (nano-satellite) into low Earth orbit. Program places an emphasis on creating opportunities for under-represented groups, including girls and minorities.	\$10,000+
